Front Page: Liverpool Cathedral. If you look carefully you will see the Phoenix Organ at bottom right.

Custom Built PT Models

At Phoenix, we know how important it is to satisfy the varied tastes of organists and the musical needs of every church. And so, using real-time sampling technology, it is, quite frankly, very easy to provide custom specifications on all Phoenix Organs, even the least expensive, smallest models, at no extra charge. Not only that, but our smallest models use the same high quality electronics, hardware and pipe samples as our largest, drawknob instruments. As well, Phoenix consoles are well proportioned and hefty to meet North American expectations. Consoles and pedal boards are built from select hardwoods.
