

A used Phoenix PT239:

2-manual, 39 stop custom digital organ

- 4 organ specifications (American/Romantic, German Baroque, Organ w/Orchestral sounds, and a Theater/Gospel organ).

- 6 independent audio channels.

- Seven small speaker cabinets (painted black w/ black grill cloth). - **see spec sheet for more information**

Built into an AOB organ console -

- Console condition: Good - some very minor blemishes, but not noticeable. Oak - heavily built.

- Pedal board and toe pistons were re-used, but high-quality and are in excellent operating condition.

- Music desk was installed by previous owner. (Plexi can be sourced locally if replacement is desired.)

- **The entire interior was replaced new - new stop rail, new rocker tabs, new piston rail, and new keyboards.**

- **Organ is in perfect operating condition, and has been thoroughly examined.**

- Organ was "built new" into this console in August 2003, just over 5 years ago.

- Current speaker configuration is sufficient for a home or very small chapel with excellent acoustics.

- New, larger speaker system is available for larger venues... excellent 2.2 Surround Sound recommended for small space.

Conditions of sale:

- **\$12,500.00 - The organ is priced at more than 20% less than appraised value.**

-- (new organ this size would be just under \$40K).

- We can deliver organ within 150 miles.

- Over 150 miles: Can deliver for additional fee, or arrange for shipping - you must prepay for shipping.

- We provide up to 50-ft of 6-pair speaker cable; additional cable can be provided at additional cost of \$3.50/per foot*.

- We will help you find a service technician in your area for any future service needs.

--Any qualified organ tech can work on a Phoenix Organ

-- (Phoenix Organs does not require "factory-trained" technicians.)

-- Warranty - *Factory Warranties are not transferable*, thus this organ is offered without warranty, as is.

-- However, we will offer a 3-month Service Warranty if you are located within 100 miles of Fairhope, AL.

- Installation and voicing is not included in price. These services are available at additional cost:

-- Mileage at \$1.00/per mile, total of round-trip mileage.

-- Labor: \$295/per travel day (out of office fee), plus \$595/day installation/voicing fee, billed in full-day increments.

-- Installation materials/supplies, estimated at \$125, does not include speaker cable (*see above).

-- Lodging and Meals - estimated at \$160/day.

-- Volunteers for carrying and cable pulling appreciated, and can save much on-site time.

- We will provide both the Voicing Software, and Configuration Software in the sale price. (\$400 value).

- Full payment before delivery or shipping, please.

- This is an already a greatly discounted price, so we kindly request no negotiation, please.

The organ is designed to drive any number of pipe ranks with the addition of the appropriate number of pipe driver boards.

If you ever have the need, or desire, the amplifiers in this organ can be replaced, or upgraded with larger amps, from any supplier of commercial amplifiers. (They are non-proprietary), entire system is updateable.

The organ weighs approximately 650# with pedals and bench - Console dimensions are 52" high x 66-1/2" wide x 34" deep (without pedal board in place); About 50" deep with pedalboard and bench in place.

(Subject to change without notice)
